*“ There are things that you can Not Imagine
There are things that you can Not Tell
There are things you can Only See! ”*

Burlesque Vivo - The Pink Suite - is the **first video DVD-ROM that combines innovative filming techniques in 3D** with the elegance of Burlesque Show, which marries beautifully strip, theater and dance binding in a one thread the performance by Dita Von Teese to the look of Bettie Page, historical pin-up icon of fifties.

Burlesque Vivo has been entirely shot in London during the **London Burlesque Festival 2009** and involved seven of the best performers of the international burlesque scene. **Cecilia Bravo, Chrys Columbine, Fifi Fatale, Honey Moon, Millicent Bink, Roxy Velvet and Veronika Valentine** literally come out of spectators PCs. The high quality of work done in the six months of production has made possible to bring out the best performances of the stars, offering the viewer a very compelling vision.

Born from the international collaboration between **Chaz Royal**, the leading name in Burlesque Production Worldwide, and **3DVIVO**, Italian company that operates in the van of the technique applied to audiovisual media, the project is co-produced by **Atom production** and **ARDACO**. Burlesque Vivo can be defined as the missing link between live show and home entertainment.
